

CORNELL STANDARD PROJECT AGREEMENT FOR EXTERNAL COLLABORATIONS (CSP-EC)

Computing & Information Science
February, 2017

The goal of this agreement is to make it easy for students and organizations to cooperate on student projects for academic credit.

TIP To help make this agreement more readable, we've included tips along the way to clarify the legal terms and highlight their rationales.

1 THE AGREEMENT

1.1 This is an agreement ("The Agreement") made between _____ ("The Student(s)") and _____ ("The Organization") on this date 08/15/2018 (RED HAT, INC) ("The Effective Date").

1.2 Wherein, The Student is a student of Cornell University ("The School").

TIP Notice that certain terms in this section are emphasized (e.g., "The Student"). This is a common legal mechanism that indicates a term is being defined for use in a particular agreement. Any reference to a defined term later in the agreement will refer to the specific meaning created where it was defined.

2 THE PROJECT

2.1 "The Project" means the student project titled "FABRIS ANALYTICS" to be carried out by _____ The Student for academic credit from The School in cooperation with The Organization.

2.2 This agreement is entered into for educational, not commercial, purposes. No payment is due from any party to any other party in connection with The Project and there is no promise that The Project will produce anything of commercial value.
